

## **ANODIZE**

Chromic Anodize, Type I  
Boric Sulfuric  
Sulfuric Anodize, Type II  
Hard Anodize, Type III  
Hard Anodize, Type III  
Salvage Hard Anodize/Plating  
Chemical Film  
Dyes-Class 2 (additional)  
TFE Hard Anodize  
Metalast Hard Anodize

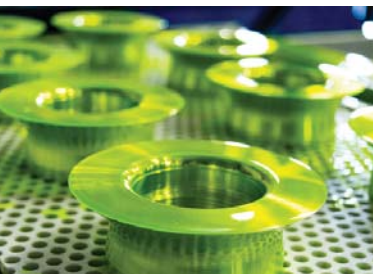

## **PLATING**

Cadmium Plating, Type I  
Cadmium Plating, Type II, Grade A (Gold, Clear, Olive Drab)  
Cadmium Plating, Type III  
Low Embrittlement Cadmium Plating (Douglas CAD LHE)  
Nickel-Cadmium Diffused Plating  
Electroless Nickel Plating  
Nickel Plating, Bright  
Nickel Plating, Sulfamate  
Tin Plating  
Tin-Lead Plating  
Copper Plating  
Silver Plating

## **PAINT**

Prime  
Topcoat  
Prime and Topcoat  
Fuel Tank Coating  
Solid Film Lubricant (Dry Lube)  
Sol-Gel

## **SPECIAL PROCESSES**

Vacuum Cadmium Plating Type I, II, & III  
Brush Plating (Dalic)  
Black Oxide Coating  
Passivation  
Phosphate Coating - Manganese & Zinc

## **NON-DESTRUCTIVE TESTING**

Fluorescent Penetrant Inspection  
Rockwell Hardness Testing  
Conductivity Testing  
Magnetic Particle Inspection  
Technical Sheet for MPI  
Nital Etch/Temper Etch

## **LABORATORY TESTING**

Salt Spray Testing  
Water Immersion Test  
Coating Weight Test  
Copper Sulfate Test  
Taber Abrasion Test  
Solderability Test

## **SPECIAL CHARGES**

Masking  
Strip Plating  
Strip Paint  
Abrasive Blasting  
Embrittlement/Stress Relief  
Identification  
Source Inspection  
High Temp Bake (400 F >)  
Chemical Cleaning  
Application of Oil  
Etch or Titanium Clean and Etch  
S/N Verification, Documentation  
Technical Data Plan  
Resistance Testing  
Frozen Planning  
GE Frozen Planning
